Work Experience

Codefi LLC, Cape Girardeau, MO

Code Coach / Bootcamp Instructor 07/2021-01/2022

Technologies: Angular 12/13, TypeScript, HTML, CSS, Node.js, GitHub

Codefi is a technology startup that provides program participants with web development skills and practical experience to prepare them for an entry-level software developer job.

- Instructed, led, and mentored a group of 12 junior developers with varying levels of technical ability.
- Created supplementary course materials to accommodate students' different learning styles.
- Collaborated with 3 instructors to build and write tutorial-style documentation for a full-stack web application.
- Suggested changes to program delivery to improve student confidence and retention.
- Technical judging for youth coding competition.

2018-2021: Cook and Kitchen Management in corporate kitchens.

2014-2018: Crew Member and Shift Supervisor at CVS Health. 2+ years managing customers and crew members.
